

This is a Special Thank you to Dr Sudhir Kamath,

Having taken the responsibilities of a Financial Doctor myself at Ffreedom Financial Planners, at times I feel it a compelling need to tell our clients the wrongs that they are currently doing and things to do to avoid getting into Financial trouble later on. We cannot undermine the importance of a good doctor to achieve any meaningful results, or for that matter any cure to an illness.

So at our meeting in December when you discussed with me that I needed to get a root canal treatment done after giving me a pictorial as well as a verbal explanation of the problem, I agreed. Although I must admit that i was a bit skeptical as to whether the same would be painful at all.

At the session itself you guided me, educated me and you made me feel very relaxed throughout the process of this cleaning up. The latest equipment used in the treatment helped a great deal but what pleased me was the humane touch provided by yourself, which was very comforting.

Dr Kamath, I thank you for providing me with a complete cure and a reason to smile, I shall always refer you to all my clients and business partners

From

Kamal Shroff
